

The Invisible Funnel Blueprint

Leads that arrive whether or not you posted today

The 4 Stages

01 — Evergreen Traffic

Content that keeps working in search long after you've moved on. Not social posts — search-based content.

02 — The Lead Magnet

A specific promise, consumable in under 30 minutes, delivering one real result — not just information.

03 — The Nurture Sequence

5-7 emails that build trust automatically, without you writing a new one each time someone joins.

04 — The Offer

Arrives only after trust is built. Plain, clear, no manufactured urgency.

The Test

If you stopped everything for two weeks, would leads still arrive? If no, you don't have a lead generation problem — you have a system that was never built.

My current gap is in stage: _____

Build the system once. Let it run without you in the room.
